Dear Bill, 11/29/97

Someone else had told me about Twyman's book. I do not intend to get it, but thanks for the paper on it.

Last night I heard from John Norris, the retired SS agent who'd been on the White House detail. He had what he was told is a small stroke and doesn't drive as much as up here. It is not detectable in his voice of what he says. He says he has lost Hickey's address and will try to get it or the address of Hickey's daughter for me.

I had started writing The Dark Side of Sy Hersh when I got some new and I think worthwhile information, so I laid Hersh aside and have come close to the end of an Afterword for Waketh. Adds to what is in that manuscript, I think.

When I finish that I'll return to Hersh. His is a professionally dishonest book. The dishonesty is professional. But there are enough Kennedy haters to make a financial success if it.

It will probably be on this week's best-seller lists.

Best,

Harold
